

STUDENTS ENROLL IN THRIFT CLASS

Large Percentage in Public Schools Show Interest in Banking Program.

"Thrifty," which provides for a system of banking in each of the city schools, has been installed in 14 of the educational units of South Bend. Each room has had its first, and in some instances, its second "banking day."

The Junior High school, in which the system was recently completed, boasts a percentage of 81 of the total number enrolled who have opened accounts. There are 100 percent rooms, which means that each student in the room has a bank book and has become a depositor.

To Award Cup.
Miss Beatrice M. Wolf, in charge of the work of installation in South Bend, has placed a silver cup at the Junior High school. It will be awarded before the close of school in the spring to the grade which stands the highest. Amounts deposited are not to be considered, it is the regularity of depositors and the number of withdrawals that will decide the winner of the cup.

A system of keeping the accounts of each student and each school has been put in use at the deposit clearing house. It is a surprisingly simple in its efficiency, giving information with regards to the student, the amount of his deposits, his instructor and school.

Capture Master Bandit In New York After Big Daring City Robberies
NEW YORK, Feb. 16.—New York police today captured Henry Nelson, 25, alleged master bandit.

He is believed to be chief of the gang of gunners that is responsible for numerous bold robberies during the last few weeks. Nelson, who also uses the name Henry Kaufman and is only 25 years old, is declared by police to have confessed to participation in several big jobs.

Nelson is alleged to have confessed to the robbery of the Faber Pencil Co., the holdup of Joseph H. Harnett, a Hudson shirt manufacturer, and to many other crimes which netted the perpetrators thousands of dollars. He also told police his gang attempted to hold up a messenger of the Butchers and Drovers bank and take a \$11,000 payroll.

French Farm Lake Owner Offers Site to Scouts
A. F. Watson, owner of French Farm Lake and grounds in Michigan bordering on Lake Michigan, has offered a site for the use of the scouts who will take the "honor trip" next summer.

The trip is sponsored by the Studebaker corp. which will furnish the cars that will carry the boys to the camp site.

The grounds offered by Mr. Watson are said to be ideal for camping and are the most promising that have so far been considered.

Modern Columbus Announces Voyage

WILBUR GLENN VOLIVA TELLING HIS PERSONAL ATTENDANT, JARVIS H. DEWEY, HOW THE FLAT EARTH THEORY SHALL BE TAUGHT IN ZION CITY SCHOOLS. VOLIVA'S DIAGRAM SHOWING WHY A SHIP DISAPPEARS AT SEA. AR AND CD REPRESENT WATER AND SKY LEVELS. JW IS THE LEVEL OF SIGHT.

EARTH IS FLAT, VOLIVA ASSERTS

"I'll Sail Around Rim of Earth to Prove It," Zion "Columbus" States.

ZION CITY, Ill., Feb. 16.—Wilbur Glenn Voliva, head of the Zionite religious cult, has set out to make himself a modern Columbus. Just as Columbus in 1492 sailed across the Atlantic to prove the earth was a globe, Voliva says he will sail around the "rim of the earth" to prove that it's flat.

Voliva at work on plans for his cruise now.

When those plans are completed the good ship Zion, captained by Voliva himself and manned by a group of zealous disciples, Voliva says, will start out at a point on the 65th meridian and keep going till it comes back to the starting point.

The 65th meridian is just above the Antarctic circle. According to ordinary geographic notions, it should take only as long to sail around it as it does to go around the Arctic circle.

Because, on common belief, the earth is spherical in form like an apple. That would mean that the

longest way around would be at the equator, and that the distance around would become shorter the nearer one came to the poles, or ends.

But Voliva doesn't believe that. He thinks the world is a big circular plain—as flat as a pancake, he says.

He says the point we call the north pole is in the center of the world. And that there isn't any south pole.

He says the 65th meridian is very near the rim of the earth—the jumping off place.

So the object of Voliva's cruise will be to prove that if one goes around the 65th meridian he'll go all the way around the rim of the world—that it will take him six months of fast travel instead of the comparatively short time it should take, according to standard geographic teachings.

Voliva is the greatest living exponent of the flat earth theory. His views are shared by most of the inhabitants of Zion City, members of his cult. The flat earth doctrine is taught in Zion City schools.

Bases Theories on Bible. Voliva bases his theories on literal interpretation of the Bible. He says Bible teachings are more reliable than modern astronomical beliefs.

Here are some of the passages he says prove the world is flat: "The pillars of the earth are the

Lord's and He has set the world upon them.—Psalm 124.
"The world is established that it cannot be moved.—Psalm 93:1.
"Of old hast thou laid the foundation of the earth.—Psalm 102:25.
"Where wast thou when I laid the foundations of the earth?—Hebrews 1:10.
"So one can't be a Christian and a believer in modern astronomy—unless he's a hypocrite," Voliva concludes.

The flat earth is surrounded by a high rim of ice, Voliva teaches. From this ice arise three pillars which support the sky.

The sky is a solid roof over the earth. On the other side of the sky is heaven. Hell is under the earth. Volcanic eruptions are exhausts of hell fire.

"Sun 32 Feet Across." Voliva teaches, too, that the sun's only 32 feet in diameter and that it moves around above the earth with a circular motion. It's only 27,000 miles away.

The stars are no larger than they seem to us. They're not separate worlds, millions of miles away, Voliva says.
"How do you get around the fact that a ship traveling away from shore, gradually disappears, first the hull, then the masts? Doesn't that prove the earth is round?" I asked Voliva.
"Of course not," he said. "That's simply a matter of perspective, just as rails on a railway track seem to converge in the distance when you look at 'em."

HILL'S C. B. Q. Tablets are best by test. Try this simple experiment:
1. Drop a C. B. Q. Tablet in a glass of clear water.
2. Instantly the tablet begins disintegrating or "breaking up."
3. In 10 seconds the medicinal properties are thoroughly mixed with water.

Then, Hill's C. B. Q. Tablets act immediately, give relief without delay and begin checking Colds and La Grippe long before ordinary tablets, by actual test, are absorbed by the stomach juices. To prove this, subject other than C. B. Q. Tablets to the test, and observe that in most instances an hour or more is required for complete disintegration.
